Cost: \$30.00

Minimum 44

Maximum 54

The Rockwall County Master Gardeners have kindly invited us to visit their Discovery Garden created to demonstrate, educate and grow the interest of gardening. The garden includes several displays highlighting various types of gardens. There is a Xeriscape garden, an EarthKind™ rose garden and KnockOut rose trials garden, test plots, Children's gardens and many more.

Next we will visit private gardens recognized for their diversity in plant material and seamless design.

Then we are on to a wine tasting and tour of San Martino Winery and Vineyards located in the verdant, rolling meadows just past the city bustle. It is a small family-owned winery specializing in handcrafted wines using modern techniques but with a traditional "soul" borne in the fertile lands of northwestern Spain.
